Natural Gas Flaring Reporting Template

TO: Operators and Payers of State of Wyoming Oil and Gas Leases

FROM: Office of State Lands and Investments

SUBJECT: Natural Gas Flaring Reporting Template

From time to time, as we continue the work off this Office processing production reports, we may send out reminders or clarifications when we see an issue or element that needs to be addressed. In that regard, we have found that some companies are not providing the natural gas flared volumes from wells on Wyoming State Oil and Gas leases as required.

All natural gas volumes, which are flared from any well in which the State of Wyoming has a share of the interest, must be reported to the Office of State Lands and Investments (OSLI). These volumes shall be reported on a monthly basis using the template shown below. The monthly report shall be sent to the Royalty Compliance Supervisor, Billie Hunter each month. This report can be sent via email to billie.hunter@wyo.gov or via USPS to the above address. In addition to this monthly reporting requirement, there is a requirement to apply for royalty free disposition for all volumes which have been flared beyond the 15 day testing period allowed by the Wyoming Oil and Gas Conservation Commission in excess of 60 MCF/D. Please refer to the Natural Gas Flaring Policy which is located on the OSLI website.

November 2015 Flared Volumes					
API Number	Operator	Well Name	Flare Volume	MCF/D	Comments
					<60 MCF/D No Royalty Free Disposition Required
